

# Community Facilities

- Seend Parish has a number of facilities which provide important services for the community.
- The Neighbourhood Plan has some power to protect these facilities and possible to use new developments to produce more.
- The Steering Group have identified key Community Facilities on the map below.

*Please take a look at the map below and let us know your thoughts. Is there anything we've missed off?*

# Highways

- The Seend Road Safety Initiative Report (SPNPSG Sub-Committee, Feb 2017) sets out and evidences concerns around the roads and safety and contains a number of recommendations.
- Many aspects of traffic and transport are not covered by planning law and do not require planning permission. If the Plan looks at specific sites, there may be a way to include some of the recommendations, for example as part of a site brief.
- The Neighbourhood Plan could contain Seend Parish highways projects based on the recommendations of the above report.
