# 1. Introduction

The Local Green Space (LGS) designation was introduced in national planning policy, as part of the Government's commitment to promoting healthy and safe communities (NPPF, 2019, Section 8, para. 99-101). Through Local and Neighbourhood Development Plans, local communities can identify and protect green areas of particular importance to them.

Once a site is designated as a Local Green Space, it is protected against inappropriate development except in 'very special circumstances' (para. 143).

The designation of Local Green Space must be complementary to the objectives of sustainable development, and to sufficient investment in homes, jobs and other essential services. It must also be consistent with national and local Green Belt policy.

National policy states that blanket designation of all green space is not appropriate. For a Local Green Space to be eligible for designation, it must be:

- In reasonable proximity to the community which it serves;
- Demonstrably special to a local community and hold a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquility or richness of its wildlife, and
- Local in character and not an extensive tract of land.

Proposed designations must be supported by evidence that the green area is special to the community.

National planning policy and guidance (Section 8 of the NPPF, and paragraphs 005-022 of National Planning Practice Guidance) identifies a number of specific exceptions where designating Local Green Space is not appropriate:

- **Education sites:** The NPPF (para. 94) places great weight on the importance of ensuring a sufficient number of school places is available to meet the needs of existing and new communities, and therefore on the need to create, alter or expand schools. Because of this, it is very unlikely that green spaces within school grounds, including playing fields, are suitable for Local Green Space designation.
- **Sites with planning permission:** A green space within a site with extant planning permission cannot be designated until the development is complete.
- **Highway land/verges:** Corby Borough Council<sup>1</sup> state that 'national guidance states that the space must be capable of enduring beyond the plan period. Land adjoining an existing highway is the subject of 'Permitted Development' rights, which could be used to bring forward development that may be contrary to a Local Green Space designation, but would not require planning permission to be granted. Highway land may also be utilised in bringing forward future highway/transport schemes. Therefore, highway land/roadside verges would not normally be suitable for designation.'

<sup>1</sup>Corby Borough Council Technical Guidance Note – Local Green Space Designation, May 2018:  
<https://www.corby.gov.uk/sites/default/files/Technical%20Guidance%20Note%20-%20Local%20Green%20Space%20Designation.pdf>

In Seend Parish, it is relevant to note that some draft LGS proposals are located adjacent to an existing highway (Entrance to Love Lane and Dial Close). In these instances, the spaces are considered not roadside verges but discrete spaces that are evidenced to hold a particular significance to the local community. Because of their location adjacent to the Highway, these spaces may not be appropriate for designation.

Some open spaces are already protected by other designations such as Site of Special Scientific Interest (SSSI), or Conservation Area etc. If this is the case, consideration should be given to whether any additional local benefit would be gained by designation as a Local Green Space. For sites such as this, the added value of Local Green Space designation needs to be demonstrated over and above the existing designation.

## 2. Process

The process undertaken to date, to identify Local Green Spaces for designation in the Seend Parish Neighbourhood Development Plan, is outlined below:

Stage	Explanation	Notes
Initial Long List (March - April 2018)	<p>The NDP Steering Group put together an initial long list of potential LGS.</p> <p>To inform the initial long list of LGS, the steering group invited suggestions from the local community via:</p> <ul style="list-style-type: none"> <li>- Articles placed in local newsletter Spotlight (March &amp; April 2018)</li> <li>- Consultation during the Canal and River Trust Lock Open Day (10<sup>th</sup> March 2018)</li> <li>- Letters to surrounding parishes and Wiltshire Council (April 2018)</li> </ul>	<p>A copy of the articles in Spotlight are found at Appendix 1</p> <p>A copy of the table used at the Lock Open Day is found at Appendix 2</p> <p>A copy of the letter sent to neighbouring parishes / Wiltshire Council is found at Appendix 3</p>
Further Suggestions & Shortlisting (May 2018)	An initial assessment of the long list was carried out; site visits and testing the sites against NPPF criteria as outlined in Section 1. Further LGS suggestions were discussed, assessed and added to the shortlist at the May 2018 Steering Group Meeting.	
Community Evidence Collection on shortlisted sites (August - October 2018)	<p>Letters and forms sent to each residence in the Parish to collect evidence on the special nature of each space.</p> <p>Reminders to complete and return the forms were included in Spotlight from July – October.</p> <p>An additional space – Dial Close - was suggested for consideration during this process.</p>	<p>A copy of the letter / form sent to each residence is found at Appendix 4.</p> <p>July edition of Spotlight is found at Appendix 5.</p>
Community Consultation on emerging shortlist of Local Green Spaces at Coffee Morning (January 2019)	<p>One of the A1 consultation boards at the drop in Coffee Morning consultation event covered Local Green Space and the emerging shortlist. Attendees were asked to comment on the list and add any suggestions for further nominations.</p> <p>Two additional spaces – Weavers</p>	A copy of the consultation board is at Appendix 6.

	Cottage Allotments and the Lye Green Area C – were suggested for consideration during this event.	
Additional Community Evidence Collection  (April - May 2019)	<p>Assessment of the additional suggestions that came forward through public consultation indicated that the entrance to Dial Close could fit the national planning policy criteria for local green spaces. Letters and forms were sent to the 30 properties on Dial Close (and 4 properties whose drives come out around the Dial Close entrance) in order to collect evidence on the special nature of the space.</p> <p>This was also advertised in Spotlight.</p>	<p>A copy of the letter / form sent to each residence is found at Appendix 7.</p> <p>The associated Spotlight article is found at Appendix 8.</p>
Landowner Notification  (March 2019)	<p>Landowners formally notified in writing of nomination of their land as potential local green space.</p> <p>Some landowners responded, detailed in Section 4.</p>	<p>Copies of letters sent to landowners are found at Appendix 9.</p> <p>Landowner responses and other correspondence with landowners, are found at Appendix 10.</p>
Additional Community Evidence Collection  (Summer 2019)	Co-working with Melksham Without Parish Council to collect more evidence on the BRAG space.	See Appendix 11 for consultation undertaken in Melksham and Melksham Without.
Additional Landowner Notification  July 2019	<p>Landowner of BRAG picnic site (Wiltshire Council) formally notified in writing of nomination of their land as potential local green space.</p> <p>Landowner of Dial Close green space unknown, so a site notice was displayed on site for a period of 5 weeks.</p>	See Appendix 9.
Assessment of evidence  (Spring – Autumn 2019)	Review of all evidence collected and assessment of spaces against NPPF LGS criteria.	See Section 4.
Draft Regulation 14 Proposals  (November 2019)	Steering Group agreed regulation 14 draft Local Green Space designations	

Regulation 14 Consultation  (February – March 2020)	The draft Local Green Space proposals were consulted on as part of formal Regulation 14 consultation on the Neighbourhood Plan. Relevant landowners were contacted again as part of this formal process.	See the Consultation Statement for a full record of comments received in relation to Local Green Space.
Additional landowner consultation – Giles Wood  (June 2020)	Following a number of comments received during regulation 14 consultation regarding the importance of Giles Wood, the Steering Group decided to propose Giles Wood as a Local Green Space.  The landowner was formally notified in writing of nomination of their land as potential local green space.	See Appendix 12 for landowner correspondence.
Assessment of evidence  (June 2020)	The Steering Group reviewed all evidence, including comments received during and after Regulation 14 consultation, to arrive at the Regulation 15 Local Green Space proposals.	
Draft regulation 15 proposals  Summer 2020	This report includes the Regulation 15 Local Green Space proposals.	

What follows is a collation and summary of the evidence received for each nominated space, together with an assessment of each against the criteria set out in paragraphs 99-101 of the NPPF.

Full copies of the comments received during consultation are available on request.

### 3. Summary of Draft Proposals for Local Green Space Designation

The table below provides a summary of the draft proposals for Local Green Space designation based on all of the information and evidence gathered. Full details of the assessment undertaken are in Section 4. The colour coding system described below is also used throughout Section 4.

Key

	Do not designate as Local Green Space
	Proposed for Local Green Space designation

Site No.	Site Name	Regulation 14 Draft Local Green Space Proposal
LGS1	Parish Council Allotments	Proposed for Local Green Space Designation
LGS2	Bowerhill Residents Action Group Picnic Area	Proposed for Local Green Space Designation
LGS3	WI Allotments	Proposed for Local Green Space Designation
LGS4	Entrance to Love Walk	Proposed for Local Green Space Designation
LGS5	The Horse Pond	Proposed for Local Green Space Designation
LGS6	The Lye Green Area A	Proposed for Local Green Space Designation
LGS7	The Lye Green Area B	Proposed for Local Green Space Designation
LGS8	Entrance to Dial Close	Proposed for Local Green Space Designation
LGS9	Giles Wood	Proposed for Local Green Space Designation
LGS10	Pelch Lane Grass Triangle	Not suitable for designation. The space is a green verge adjacent to the highway with limited special quality.
LGS11	Field adjacent to Holy Cross Churchyard	Not suitable for designation. The space is not local in character. It is also ecclesiastical land and therefore inappropriate for designation. Included in GI network.
LGS12	West of Caravan Park	Not suitable for designation; the space is not local in character.
LGS13	Rusty Lane	Not suitable for designation; the space is a linear corridor running along the right of way, which is already protected under other legislation (see Planning Practice Guidance Para. 018 Reference ID: 37-018-20140306).

LGS14	Dismantled Railway along footpaths SEEN52 and POUL33	Not suitable for designation; as above.
LGS15	Curnicks Lane	Not suitable for designation; as above.
LGS16	Broad Lane	Not suitable for designation; as above.
LGS17	Weavers Cottages Allotments	Not suitable for designation; the space is not accessible to the public and not visible from public right of way.
LGS18	The Lye Green Area C	Not suitable for designation; the space is not considered able to be evidenced to be demonstrably special to the community relevant to the criteria that the NPPF requires.

<p><b>LGS4 – Entrance to Love Walk - Regulation 15 Proposal</b></p>	

<b>Summary</b>	<p>Designate as a Local Green Space. The Entrance to Love Walk proposed Local Green Space aligns with the National Planning Policy Framework Local Green Space criteria in the following ways:</p> <ul style="list-style-type: none"> <li>- It is close to the community it serves (located within the 'Historic Core' Character Area).</li> <li>- The space is local in character</li> <li>- It has been evidenced as demonstrably special to the community during informal evidence collection; comments received particularly in relation to its beauty and recreational value.</li> </ul> <p>The landowner has expressed concerns that designation would affect access onto their land (this space provides vehicular access to their field behind the High Street to the south).</p>
<b>How else is this space protected in the Neighbourhood Plan?</b>	<p>The green verges along the High Street are included in the Seend Conservation Area Assessment Design Statement as a key characteristic of the Village which the NDP seeks to protect and enhance through policy. This is also included in the Green Infrastructure work which again will be the subject of a planning policy. The Oak tree is also identified as a 'significant tree' in the Conservation Area Assessment which forms the evidence base for a Plan policy to protect and enhance the Conservation Area and its assets.</p>
